

NOBEL29 RESOURCES ANNOUNCES OTC TICKER SYMBOL AND CLEARANCE FROM FINRA

Toronto, Ontario, June 16, 2021 – Nobel29 Resources Corp. (TSX-V: NBLC) (the “Company” or “Nobel”) is pleased to announce that its submission of the Form 211 to FINRA has been cleared and the Company's common shares now qualify for trading in the United States on the OTC Pink Market under the symbol “NBTRF”. Nobel has applied for DTC eligibility by the Depository Trust Company (“DTC”) for its shares traded on the OTC Pink Market and it expects to receive DTC’s approval in the coming weeks.

"This is an exciting step forward for Nobel and its US based investors. We hope to receive DTC eligibility soon which will be the final step in ensuring that US based investors can more easily participate in our rapidly growing company," commented David Gower, Nobel’s CEO.

The DTC is a subsidiary of the Depository Trust & Clearing Corporation and manages the electronic clearing and settlement of publicly traded companies. Securities that are eligible to be electronically cleared and settled through DTC are considered “DTC eligible.” This electronic method of clearing securities speeds up the receipt of stock and cash, and thus accelerates the settlement process for investors and brokers, enabling the stock to be traded over a much wider selection of brokerage firms by coming into compliance with their requirements. Being DTC eligible is expected to greatly simplify the process of trading and transferring the Company’s common shares on the OTC Pink Market.

About Nobel29 Resources Corp.
